In the event of any game suspension, the formula for calculating the game fee for officials is as follows:

On the originally scheduled game date, once the opening kickoff has been made, the officials are entitled to a full game fee.

If the contest is suspended and not able to be completed the same day, and the original officiating crew returns to finish the suspended game, the officials are entitled to one half of a game fee.

If a replacement crew, and/or replacement officials are needed to complete the suspended contest, that replacement crew and/or those replacement officials are entitled to a full game fee.
